SAI SAN MINE

Penetration Tester Trainee/Intern

Summary

Fourth-year Software Engineering student at Mae Fah Luang University aspiring to be a Penetration Tester. Completed CCNA training, preparing for ISC2 CC Exam, and gaining hands-on experience with tools like Burp Suite, Nmap, and Wireshark through labs such as OWASP Juice Shop and DVWA. Seeking an internship to apply and expand practical security skills.

Projects

OWASP Juice Shop Security Lab

Hands-on pentesting project exploring OWASP Top 10 vulnerabilities (SQLi, XSS, Insecure Auth) with a security report and remediation steps.

AI Assistant Chatbot

Built an automation chatbot for academic workflows (email, scheduling, PDF signing), reducing manual workload for professors.

Oonjai

Volunteer project creating a rule-based health recommendation engine with secure profiles and interactive dashboards.

LUMIQ

Developed a dorm management system for booking, payments, and roommate matching with multilingual support.

Education

Bachelor of Engineering in Software Engineering

Mae Fah Luang University

2022 - 2026

Certifications

Cisco Certified Network Associate (CCNA)	Completed
ISC2 Certified in Cybersecurity (CC)	Wait for Exam
AI for ALL	Completed
Jr Penetration Tester	In Progress
Web-security	In progress
